

Caption: Stellantis North America COO Mark Stewart (left) and Indiana Governor Eric J. Holcomb meet prior to an event to announce a joint venture to build an electric vehicle (EV) battery plant in Kokomo, Indiana, on May 24, 2022. Stellantis, with partner Samsung SDI, will invest over \$2.5 billion and hire 1,400 people to establish the first battery manufacturing facility in the U.S. As part of Stellantis' Dare Forward 2030 strategic plan, the company committed to global annual battery EV sales of five million vehicles by 2030.
